

How to make a magnetic tower sculpture

1

Draw round a piece of cardboard on whatever colour paper you like

2

Draw a tab onto the end of your outline

3

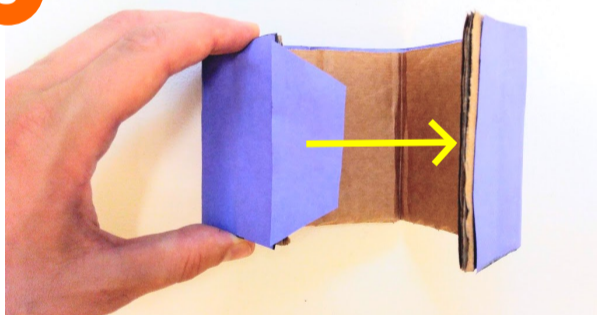

Cut round the outline and stick onto your cardboard

4

To make your 3D shape, make 2 or 3 folds at different points in the cardboard

5

Use the tab to stick the two ends together

6

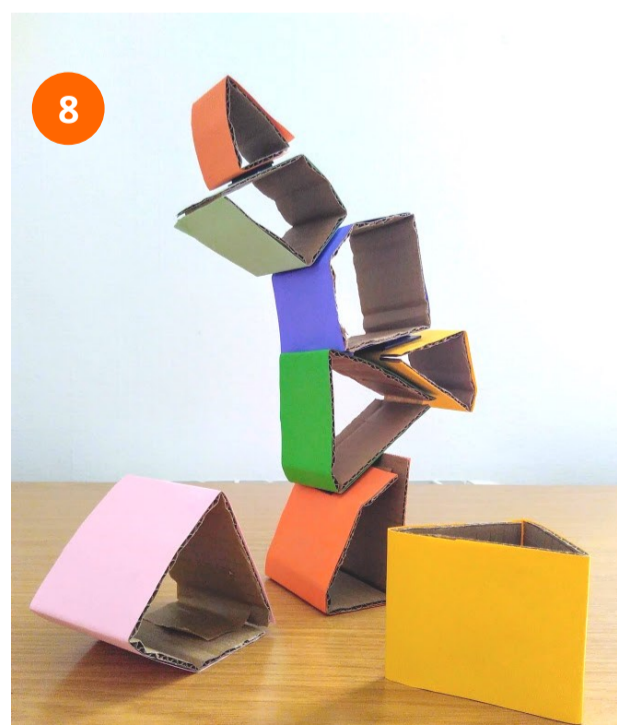

Stick on 2 pieces of magnetic tape place them on opposite sides of your 3d shape

7

Repeat these steps to make more 3D shapes with different colours and designs

8

Stack and balance your shapes to make your own creative, colourful sculptures
